Soft Suave
The smart way...

Comprehensive SaaS
Corporate Banking Solution

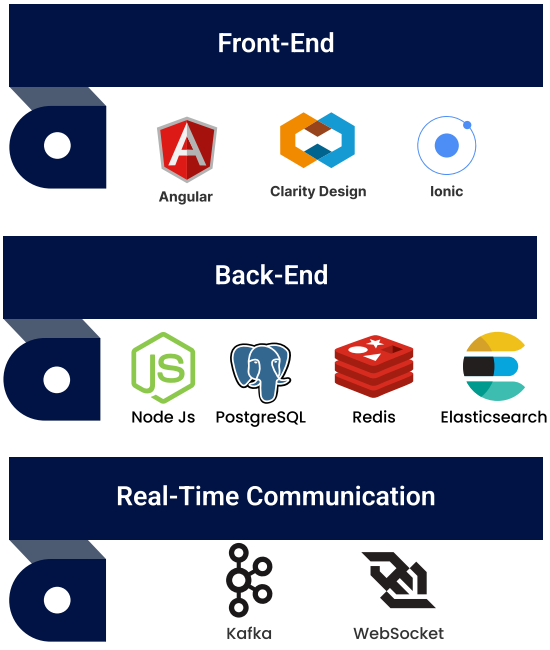

Brief

A secure, adaptable SaaS platform for corporate banking, available on both web and mobile. The solution unifies account management, payment processing, loan tracking, and secure communication, designed for large organizations with diverse financial needs.

Core Solution Modules

- **Account Management :** Handles savings, current, card, and investment accounts with tracking for deposits, withdrawals, and interest.
- **Payments** : Facilitates transfers, bill payments, and scheduled and bulk transactions with multi-factor security.
- **Loan Management (ICL)** : Manages inter-company loans within corporate networks with compliance features.
- **Sweeps :** Automates fund transfers based on customizable balance thresholds.
- **Contact Management** :Central repository for client data, enabling relationship tracking.
- **Messaging Center** : Secure internal and external messaging with archived logs for compliance.

Technology and Tools
