KEY FEATURES OF THE SOFTWARE

Dialpad:

Used to enter a phone number (via button click and keyboard) to make calls.

Agents List:

Lists all visible agents along with their details such as name, extension, avatar, and status.

Services:

Lists all the services assigned to the current agent along with their status. Agents can change their status between available and unavailable.

Contacts List:

Lists all the contacts fetched from the CRM contact object.

All Rights Reserved. Soft Suave Technologies

Ongoing Calls List:

Shows all the ongoing calls (on-call / on-hold) of the current agent. For each call, we can apply the following actions,

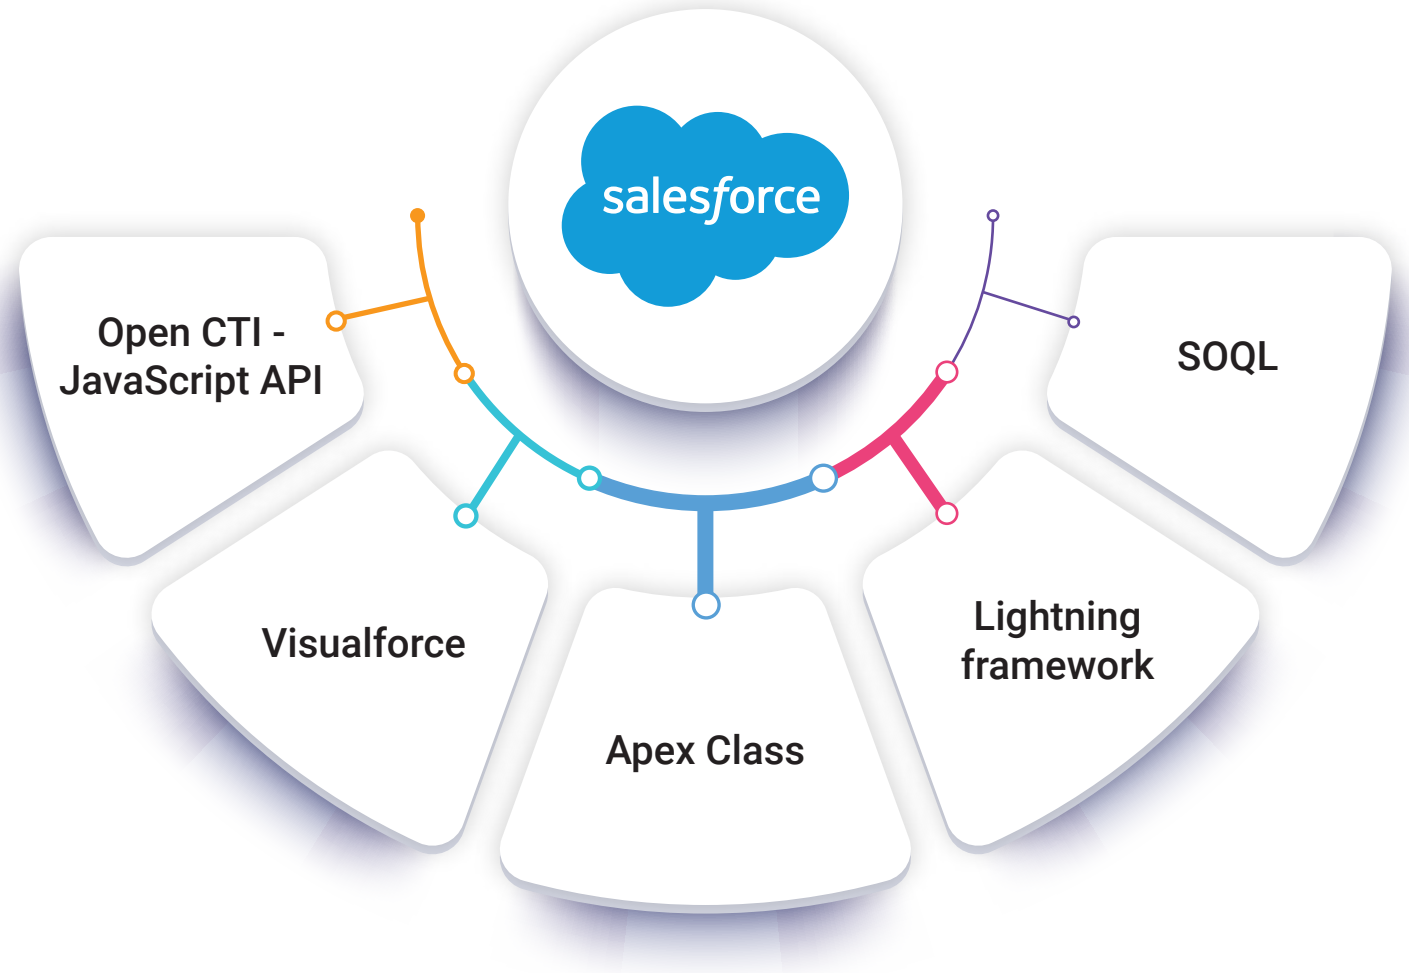

- Mute/Unmute call
- Hold/Unhold call
- **Blind transfer:** Transfers calls from one user to another without the approval of the target user.
- **Assisted transfer:** Transfers calls from one user to another with the approval of the target user.

History List:

Lists all the external (calls not made to extensions) inbound and outbound calls.
