Advanced Online Consultation App For Doctors

Soft Suave
The smart way...

Introduction

Virujh is an online consultation App that empowers doctors and healthcare providers to offer high-quality care virtually. This consultation app lets doctors & patients schedule & accept appointments, fix online consultations and offers downloadable ePrescription. The negative outcome of COVID-19 imposed small and medium healthcare providers to work behind closed doors. This online consultation app emerged as a winner to help doctors offer virtual consultation from anywhere, anytime.

Client Requirement

Client approached Soft Suave to build a health care solution to act as an efficient doctor & patient consultation platform. The key objective was to offer a time-saving consultation App for doctors to provide quality online check-up to patients. The ultimate goal of this app was to keep the patient and doctors engaged, on a daily basis, via an inter-active online tool.

Soft Suave's Solution

Soft Suave teamed up with a pool of talented developers to build a Mobile App for doctors to offer online consultation seamlessly.

- This online doctor consultation app saves time and money by providing 24/7 access to doctors.
- This online doctor consultation system allows users to search for doctors by specialty, and location to ultimately schedule appointments.
- Doctors can attend patients virtually from anywhere via video call.

- To improve the doctor's management experience, Soft Suave developed a dashboard with the best user interaction using a minimal design approach.

- Designed an appointment management system that allows doctors to set their own schedule and earn additional income.

- Integrated chat to help doctors communicate with patients and transfer prescriptions easily.

- Allowed patients to obtain downloadable PDF prescriptions from doctors.

- Soft Suave designed a UI that gave patient's maximum value in fewer steps.

- Facilitated doctors to send prescriptions through chat.

- Allowed patients to upload pictures of problems, reports, lab results, prescriptions and other documents to share with the doctors.

- Integrated video call waiting notification – Pop up for patients if doctor has arrived in the virtual consultation room and Pop up for doctors if the patients are waiting for consultation.
