# HOW WE ENHANCED CUSTOMER MANAGEMENT AND IMPROVED RECURRING REVENUE WITH A SUBSCRIPTION SOLUTION

## ABOUT THE CLIENT

The Client is a growing business in digital commerce and subscription management. They manage multiple online stores and are focused on maximizing long-term value for their clients. They do this by allowing them to provide digital memberships and subscription offerings to their end customers.

## SOLUTION OVERVIEW

The platform enables businesses with a tiered structure to manage online sales, subscriptions, customer interactions, and payments. The Client's organizational structure includes Clients (business entities) that own and manage one or more Stores (online business locations where transactions occur) and Users, who are part of a client organization and can access one or more stores according to their permission levels.

## KEY CHALLENGES

- Complex Order & Payment Management
