HOW WE HELPED STANDARDIZE PRODUCT INSPECTIONS & MOVED FROM MANUAL TO DIGITAL

Overview

Traditional factory inspections were manual, time-consuming, and error-prone. Our solution, a mobile-first inspection app, digitizes the entire process by enabling real-time tracking, barcode-based product validation, automated reporting, and structured grievance management.

Key Challenges

TIME-CONSUMING MANUAL INSPECTIONS

Paper-based processes slowed down audits.

HIGH RISK OF ERRORS & COMPLIANCE GAPS

Manual reporting led to inconsistencies.

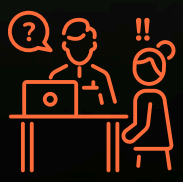

LACK OF REAL-TIME TRACKING

No centralized system for monitoring inspections.

NO STANDARDIZED VALIDATION PROCESS

Product authenticity checks were unreliable.

INEFFICIENT ISSUE RESOLUTION

No structured way to report and address grievances.

Matching Requirements

Client Requirements

The client needed a digital solution to replace manual factory inspections that enables real-time tracking, barcode-based product validation, and automated compliance reporting. They required a centralized system to standardize audit processes, ensure accurate product verification, and simplify issue resolution. The solution had to be user-friendly for field inspectors, provide instant data updates, and allow admins to monitor audits, assign tasks, and manage reports efficiently.

KEY FEATURES

Location-Based Inspections

Detect and verify factories within a 5 km radius.

Barcode Scanning

Instantly validate products using barcode data.

Automated Reports

Standardized compliance reports with photos and checklists.

Issue & Grievance Reporting

Raise and track inspection-related issues.

Admin Dashboard

Manage audits, assign tasks, and track reports via a web portal.

Seamless Data Sync

Cloud-powered system for instant updates.

USER JOURNEY

Inspector Logs In
Secure authentication for access.

Step 1

Factory Selection
View and choose assigned inspections.

Step 2

Product Validation
Scan barcodes to verify authenticity.

Step 3

Inspection Checklist
Complete compliance forms using ODK Forms.

Step 4

Evidence Collection
Attach photos for documentation.

Step 5

Report Submission
Generate and send compliance reports.

Step 6

Admin Oversight
Review reports, resolve issues, and monitor compliance trends.

Step 7

RESULTS & IMPACT

30%

Faster Inspections

Reduced manual effort and increased efficiency.

99%

Accuracy in Product Validation

Eliminated human errors with barcode scanning.

Conclusion

The Inspection App has significantly improved product audits by providing a structured, efficient, and technology-driven approach to compliance.

Digitizing inspections has eliminated inefficiencies associated with manual processes and ensured accurate, real-time data collection. The ability to track inspections, validate products instantly, and automate reporting has led to better decision-making and improved operational transparency.

SOFT SUAVE TECHNOLOGIES

Soft Suave is a prominent IT outsourcing and software development company with a rich history of serving global clients for more than eleven years. with our core expertise in IT staff augmentation, we assist businesses in augmenting their existing workforce by providing skilled professionals. our team consists of talented, knowledgeable, and dynamic developers who are devoted to offering revolutionary and effective technology solutions. we offer tailored solutions that meet the unique needs of our clients, and our customer-centric approach ensures that our clients are involved at every stage of the project.

Development Center - Chennai
Soft Suave Technologies Pvt Ltd,
No.100, Kundrathur Main Road, Porur,
Chennai – 600116, Tamilnadu, India.

Development Center - Bangalore
