

BRIDGING INFLUENCER PARTNERSHIPS AND BRAND COLLABORATIONS THROUGH ADVANCED OPTIMIZATION

OVERVIEW

A platform for influencers and companies to collaborate on offers. Influencers can browse, accept, and complete offers, while companies create and manage them, track responses, and communicate via chat. Includes user authentication, social media linking, and profile management with offer tracking

ABOUT CLIENT

The company operates a platform that connects influencers and brands for collaborations on campaigns and offers. Influencers can apply by submitting their details, and the platform helps manage offers, track responses, and facilitate communication.

KEY CHALLENGES

Authentication Issues

Social Media Integration

Real-Time Communication

Performance and Scalability

UI/UX Complexity

CLIENT REQUIREMENTS

User Authentication

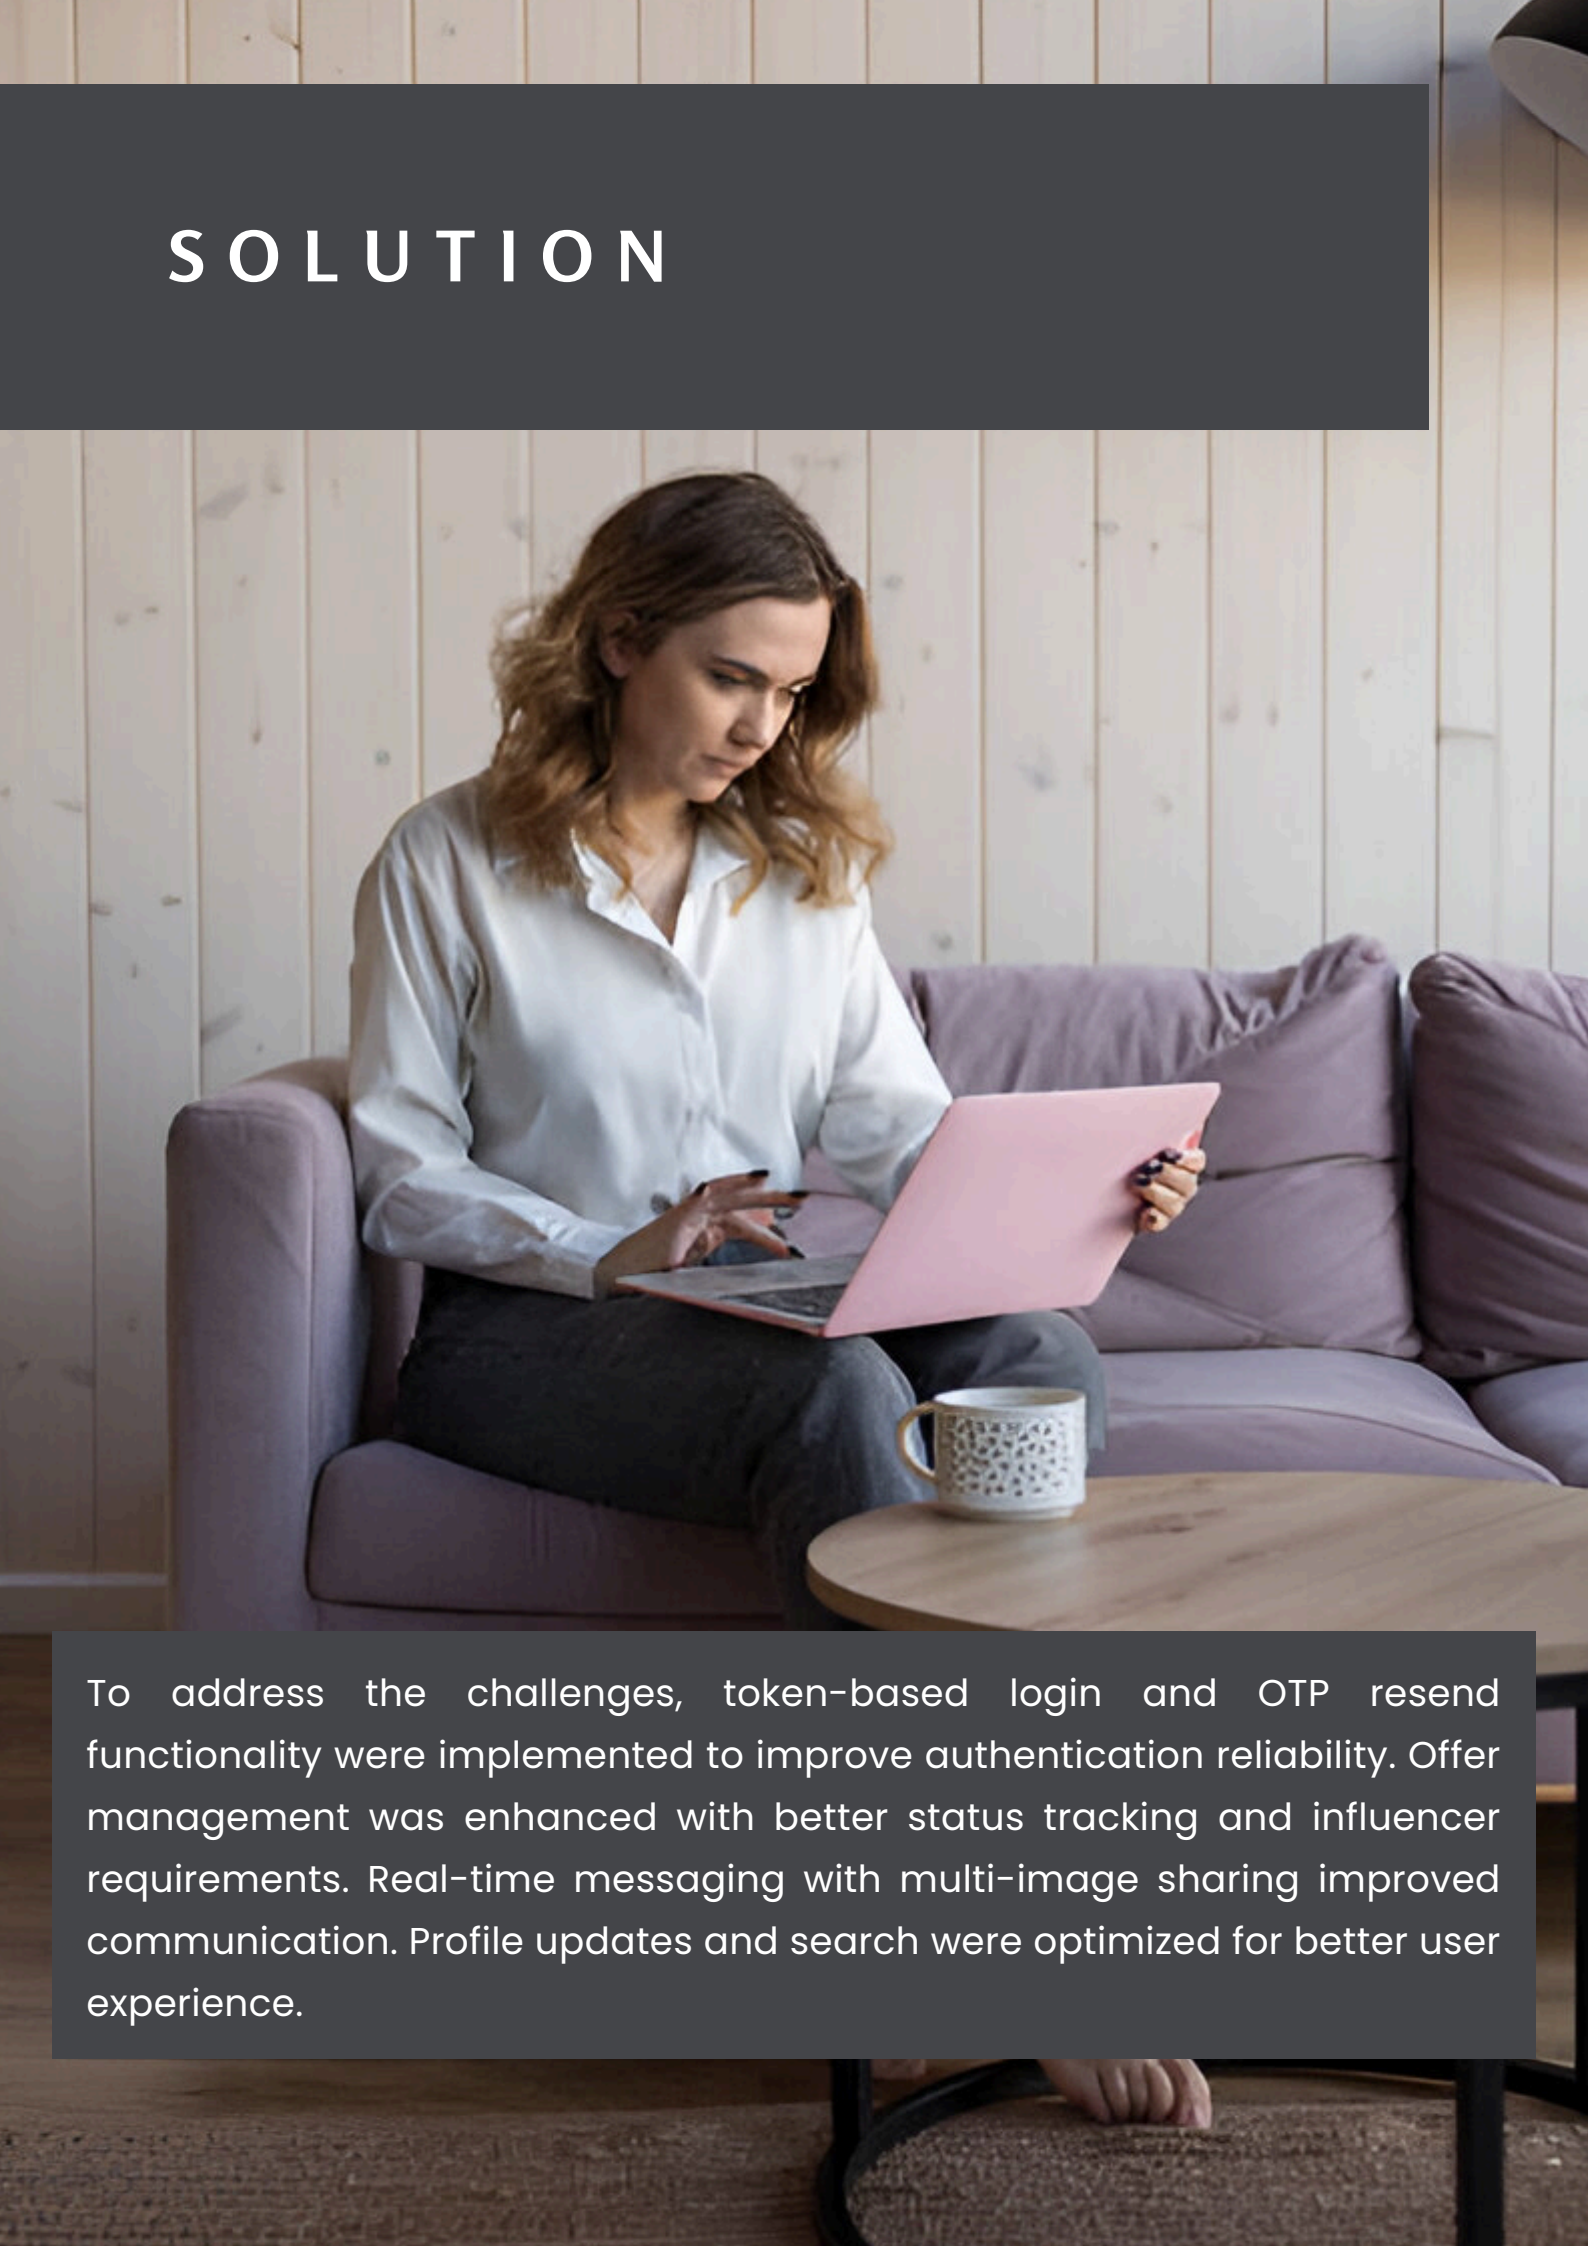

User Type Management

Offer Management

Real-Time Communication

Profile and Account Management

SOLUTION

To address the challenges, token-based login and OTP resend functionality were implemented to improve authentication reliability. Offer management was enhanced with better status tracking and influencer requirements. Real-time messaging with multi-image sharing improved communication. Profile updates and search were optimized for better user experience.

KEY FEATURES

Secure User Authentication ⏩ Managing multi-channel logins and secure OTP validation.

Streamlined Offer Management ⏩ Create, view, and track offers with status updates and detailed insights.

Real-time Communication ⏩ A chat feature with image sharing and socket-based messaging.

Enhanced Profile Management ⏩ Managing multi-channel logins and secure OTP validation.

Advanced Filtering and Search ⏩ Allow users to edit profiles, link social media, and track performance metrics.

RESULTS AND IMPACTS

45%
Increased Profile Completion

50%
Higher Offer Conversion

80%
Improved User Engagement

65%
Faster Response Time

75%
Better Search and Filter Efficiency

CONCLUSION

A unified platform connecting influencers and companies for streamlined offer management. Influencers can browse and accept offers, while companies can track and manage them. The platform supports real-time chat, social media integration, and profile customization, improving user engagement and productivity.
